WILBUR WRIGHT AND GLENN CURTISS FLY

Wright Made Three Successful Flights, While Curtiss Made Only One Successful Ascent.

NEW YORK, Sept. 30.—Wilbur Wright circled the great Statue of Liberty at the entrance of New York harbor in his aeroplane yesterday, and in the upper part of the city two dirigible balloons ingloriously failed in their task. This, the first day of the Hudson-Fulton celebration, was a victory for the heavier-than-air machines.

Wright and Glenn H. Curtiss successfully from the aerodrome of Governor's Island in their propelled bi-planes; both great machines, manned, respectively, by Thomas Baldwin and George L. Tomlinson, and entered in The New York World's \$10,000 New York to Albany race, were forced to descend because of mechanical difficulties before they were well under way.

Wright made three sensational flights, and Curtiss made one though successful test spin of his machine. Baldwin landed in the Hudson river less than an hour after the start, while Tomlinson after remaining in the air from 11:36 a. m. until 1:01 p. m., came to earth near White Plains, N. Y., twenty-two miles from starting point. Neither of the dirigibles were injured, nor was the dirigible seriously damaged.

Wright was the first to leave the ground at 7 o'clock in the morning and made a brief flight.

Wright Made Three Flights.

Wright later Wright made his second, encircling Governor's Island and remaining in the air for sev-

en minutes. After an hour's rest Wright again went aloft, this time remaining in the air for six minutes and thirty seconds, attaining a speed estimated at fifty miles an hour, and with a glorious sweep out over the bay, passing entirely around the great emblem of liberty on Bedloe's island.

Not content with these spectacular feats, Wright made a third flight at 5:20 o'clock yesterday afternoon before a crowd of 2,000 persons. Yachts, excursion boats and various craft had gathered on both sides of the fill, which is being used as the aviation field, and they tooted their whistles noisily as his machine rose from the ground for the last flight of the day. He did not attempt to fly over the water nor did he go to any great height, but executed two complete circles in the air, then made an excellent landing, while the crowd, including his rival, Curtiss, commented on the ease with which he manipulated his craft.

In all three of his flights yesterday the Wright machine showed greater speed than that of Curtiss, but the Curtiss flier seemed to keep its equilibrium better and remained on an even keel. Wright, in fact, met with one slight mishap in his first flight, when a wing tip struck the ground on landing and considerably jarred his machine.

The start of the dirigible balloon race to Albany was considerable of a fiasco, but it is announced that the balloons will be made ready for another attempt at the first opportunity.

Tomlinson was the first to start on

FROM A NEWSBOY TO GOVERNOR OF STATE

DEATH ENDS REMARKABLE CAREER OF M. W. M'SWENEY.

Former Governor Passed Away at Mount Hope Retreat in Baltimore.

COLUMBIA, S. C., Sept. 30.—Former Governor Miles N. McSweeney of South Carolina, who has been under treatment at Mount Hope Retreat in Baltimore since July 18 last, died at that institution at 1:30 o'clock yesterday morning. For the past week it has been known here that the former Governor was critically ill, and his wife went to Baltimore to be with him. She was present at the time of his death, also was his son, Eugene B. McSweeney.

His body will be brought today to his old home at Hampton, S. C., and interred there.

Former Governor McSweeney was a native of Charleston, S. C., where he was born April 18, 1855. He rose from a newsboy to be Governor of the State, and held many political offices in South Carolina, besides being a member of the State Legislature and president of the South Carolina Press Association.

His father died of yellow fever in Charleston when Miles was 4 years of age. At 10 McSweeney sold newspapers on the streets of Charleston, and later clerked in a book store, attending school at night. He served an apprenticeship in a job printing office and worked on newspapers in Charleston and Columbia. Mr. McSweeney won the South Carolina scholarship in Washington and Lee University offered by the Charleston Typographical Union, but because of lack of means to meet the necessary outside expenses he was unable to attend only a short time. In 1877 he removed to Ninety-Six, Abbeville county, South Carolina, where he engaged in the publication of The Ninety-Six Guardian, continuing in charge of that publication until 1879. He then became the publisher of The Hampton County Guardian at Hampton, S. C. From 1884 to 1894 he was chairman of the county Democratic executive committee. In 1894 he was elected a member of the South Carolina Legislature, and in 1900 Governor of the State. For several years he was a member of the South Carolina Democratic executive committee, and for eight years he served as president of the South Carolina Press Association.

the trip, which he hoped would end at Albany. He got away at 11:36, and headed north on the easterly side of the Hudson.

Baldwin arose at 11:52, shot out directly over the middle of the Hudson, and began traveling toward the State capital. In a few moments he was lost to view, but a puff of wind snapped one of his rudder ropes, and he was forced to descend. The balloon came easily. Capt Baldwin threw out dragnets, and sailors from the battleships Rhode Island, New Jersey and North Carolina, who saw his plight, rushed to his rescue in launches. Baldwin swung himself into a boat without getting wet.

Meantime Tomlinson, at a height of about 300 feet, had been going northward overland, when both his gasoline and oil tanks began leaking. Fearing an explosion, he was forced to come to earth on a country estate near White Plains. This feat he accomplished without mishap.

Was Kept Busy.

Deputy Circuit Clerk Cheves was kept busy yesterday administering oath to parties whose pensions had been approved by the State Board of Pensions. These deserving old veterans and widows of veterans will receive their warrants as soon as the Comptroller can make them out and forward same.

PRESIDENT TAFT NOW ON THE PACIFIC COAST

He Arrived In Seattle Just Two Weeks After His Departure From Boston.

SEATTLE, Wash., Sept. 30.—President Taft last night reached the Pacific Coast, just two weeks after his start from Boston. He will leave Seattle for Tacoma on Friday and will leave that city at midnight, going south until Los Angeles is reached. Then comes the turn to the East.

A great throng of people waited for the President at the station and along the brilliantly lighted streets through which he passed, and there was cheering at every step of the way.

The visit to the Alaska-Yukon-Pacific Exposition will begin today. After luncheon he will make an address in the national amphitheater. The President also will speak at a banquet at the Exposition grounds during the evening.

The President yesterday passed through a region which displayed its marvels in the way of fruit raising. At North Yakima, where he passed the forenoon and made an address, the President saw one of the oldest irrigated fruit regions in the Northwest. The yield of apples especially attracted his attention and he said he was fond of them.

In his Yakima address the President paid a tribute to Senator Wesley L. Jones of Washington, who joined the party at Spokane, yesterday. Governor Hay of Washington, in introducing the President, declared that for Vice-President in 1912 he "placed in nomination Wesley Jones."

"In nominating Senator Jones for a

place on the ticket," said the President, "I do not see why Governor Hay should not name him for the Presidency. If you nominate him for the Presidency I shall be glad to go before the country and testify to my knowledge of his worth and ability as I am doing here."

In the throng that greeted the President at the court house were a large number of Grand Army veterans and members of the Women's Relief Corps.

Good Words for Old Soldiers.

"I am honored by the presence of the Grand Army men," said the President, "and by the ladies, who, while they do not wear uniforms, suggest the presence of the women's relief corps."

"It is pleasant to note that far out in the Western country, away from the battlefields where the issue of the nation's life was contested, we find the heroes of that war who pushed out here even after so heavy a struggle, in order to build a new country and add to the strength, the expansion, the wealth and the prosperity of the country which they saved."

"Just in front of me I see a monument that brings back memories. That I always like to refer to and to emphasize. The monument I understand to be to one of those who in effect gave up their lives in the far distant Philippines in order that the duty which this Government had

Great Increase in Number Patents During Past Year

WASHINGTON, Sept. 30.—There are hundreds of unknown, hidden inventors who have done great things and have brought to pass, without any fine moral fuss about reforms—made people better living—the almost, or a cog, or a happy little lever or some-

annual report of the Commissioner of Patents is presently to illustrate this reflection statistically. It appears then that the philosopher's estimate of the number of hidden inventors is woefully inadequate. For in the single fiscal year ending with last June there were

issued 34,332 patents, an excess of 229 over the number for the year before.

The patents granted at Washington since 1836 are now far beyond a million and a half. It would seem that the advice of the special practitioner to his clients, "Invent some little thing," should begin to be difficult in the following. With the automobile still in process of development, however, and with the multiplication of flying machine devices and wireless telegraphy paraphernalia in progress, the Patent Office may look forward still to record-breaking years of registry.

Federal Corporation Tax Reduces Revenue of States

WASH., Sept. 30.—In the third national conference on State and National Taxation, the presiding officer, John Ripley Foote, has brought forward a careful and earnest argument against the Federal corporation tax and the proposed income tax as burdens to the States and to the taxpayers of which the States are the guardian. In the opinion there are, of course, income taxes and local divisions of taxes.

It is generally understood how the States in recent times have been burdened on the one

corporations, which are creatures of the State, which possess valuable privileges essential to their operation conferred by the States, and which influence directly and indirectly the prosperity, and thus the tax-paying capacity, of all the people. Mr. Foote quoted from a report of the Federal Bureau of Corporations a statement showing that in New England the States draw from the corporations from 27 per cent to 54 per cent of all their revenues, that Ohio draws 73 per cent from that source, and that every State in the Union is similarly situated to greater or less degree.

How Sheriff Hayes Lewis Dodged a Very Angry Mob

PENSACOLA, Sept. 30.—With three negroes in his custody whom a mob in his home county endeavored to get and lynch, Sheriff Hayes Lewis of Marianna, in Jackson county, arrived here at a late hour Tuesday night and placed the men in the county jail. They are Cary and Robert Gray and Dan Davis, all charged with the murder of a planter of Jackson county, named John Dukes. The negroes were captured by the sheriff late Monday afternoon and placed in the county jail at Marianna. Late in the night a mob of countrymen reached the city and made a demand for the three negroes, bringing ropes with which to string them up, as well as railroad irons with which to batter down the iron gates and doors. If admittance was refused. The jailer, who was alone, quietly secreted the negroes under some old coats in a corner, then told the mob that the sheriff had

heard that they were coming and had gone to Pensacola with the men. This they did not believe, whereupon the jailer handed them the keys and told them to make a search, and if they wanted him to be would call out all prisoners into the corridor. They were fooled by his willingness and while they went into the jail no systematic search was made, and the negroes were saved. Tuesday, however, it became known that the negroes were still in jail and talk immediately started of lynching. The sheriff decided best not to attempt another ruse, so slipped the men from jail and took the first train for Pensacola. He made arrangements yesterday morning for the negroes to remain here until the next term of court at Marianna, which will be in November. The murder of Dukes was a very cold-blooded one, it is said, and was committed while the negroes were on a spree.

Alabama Prohibitionists Dislike Judge's Decision

MOBILE, Ala., Sept. 30.—The Alabama prohibitionists feel aggrieved over the decision in relation to the right of trial by jury, but the cause of justice for the individual cannot be said to have been injured thereby—rather the contrary. The decision condemns the portion of the Fuller prohibition bill dealing a defendant

the right of a trial by jury, as unconstitutional. Judge Alford said that section 11 of the Alabama constitution stated that right of trial by jury must remain inviolate, and that the Fuller bill was in direct conflict with this. The right of trial by jury seems of greater importance to Alabama than the specific issue of prohibition.

TENNESSEE WHISKEY POURED UPON GEORGIA

CHATTANOOGA'S FIRMS AGAIN
DOING BUSINESS.

"Dry" Law of Tennessee Is Hit Severe
Blow by Court's Recent
Decision.

CHATTANOOGA, Sept. 30.—By virtue of a recent ruling by Chancellor T. M. McConnell, Tennessee wholesalers are still shipping liquors to Atlanta and all other cities in other States, although Tennessee went dry July 1.

The Holladay bill, or the State-wide prohibition law, provided "that it shall not hereafter be lawful for any person to sell intoxicating liquors," and when it went into effect all retailers and wholesalers ceased business.

Subsequently a stockholder of J. W. Kelley & Co., a local wholesale liquor house, went into chancery and petitioned the court to construe the Holladay bill as a tippler law, or else to declare it unconstitutional, as being confiscatory in that it rendered worthless the large stocks of dealers on hand.

As a final decree, the chancellor was petitioned to enjoin the State, county and city officials from interfering with complainants in the sale of their goods by wholesale, and to enjoin J. W. Kelly & Co. from discontinuing their interstate shipping business, which the petitioner claimed was about to be done by reason of the Holladay law.

Decision of the Chancellor.

The case was tried September 3, and in rendering his decree Chancellor McConnell said in part:

"It seems absurd to say that this State is helpless to prevent people in other States from shipping their liquors into our State to be used and abused by our people, and at the same time to say that the people in this State cannot ship their liquors, 'legally manufactured,' into other States. If the one is interstate commerce, certainly the other is."

"The State of Tennessee can have no right to prohibit the interstate trade of the complainants, and the attorney-general is without legal authority to prosecute for such sales, because no law is violated thereby."

"The act, so construed, is, in my opinion, constitutional in all its parts: construed to the contrary, that it applies to sale and shipments to other States, it stands directly in the face of the law controlling interstate commerce and is null and void in so far as it attempts to interfere with commerce between the State."

Thriving Interstate Business.

The chancellor thereupon issued the injunction restraining the Kelly company from discontinuing its interstate business, and another injunction restraining the authorities from attempting to prevent such sales. All other firms in Chattanooga seized upon the injunction, and since then the wholesale houses here have been doing a thriving interstate business.

January 1, 1910, a law prohibiting the manufacture of liquor in Tennessee goes into effect. This also will be attacked and the charge will be made that it is confiscatory, and lawyers are already busy preparing for ground on which to ask an injunction to prevent its enforcement.

Distillers Will Again Reopen.

It was learned last night that the Wakeman, the White Oak and the J. W. Kelly & Co.'s Deep Spring distilleries would be running at full blast before the end of the present week. Fires were made in Kelly's Deep Spring distillery at 6 o'clock yesterday afternoon, and by tonight it will be turning out 280 bushels daily.

The only local distillery which will not open this week is the Chattanooga distillery. Corn whiskey is its chief product, and because of the high prices of the grain the distillery will defer opening for a few weeks. These distilleries would have opened three weeks ago, but their large stock on hand made it unnecessary.

there should be performed and a supervision extended and aid given to a people who by the providence of God were put under our guardianship.

"Only those who have been in the Philippines know the sacrifices and the hardships to which our boys in those islands were exposed. Only those who have been in the Philippines know and have a proper pride in what they did there, for they were called upon not only to meet a foe more dangerous, fighting in Oriental fashion, but after they had conquered them they were put in a position where they had to exercise a self restraint and a guardianship and an independence of action that only men in the American army are capable of."

"So, whenever I meet anyone who has been out to the Philippines there is a bond between him and me that makes me happy and I hope that in the audience which I am addressing there are a number of those who went out there and now retain in sweet recollection the hardships which they had to undergo and the beauties of those far distant gems of the Pacific ocean."

CUSTER VETERAN DIES OF STARVATION AT 80.

NEW YORK, Sept. 30.—Daniel Clifford, one of the persevering and much-suffering soldiers who marched to the relief of General Custer, and who was in four miles of the Little Big Horn when Custer and his men were massacred by Indians, is dying in the hospital here from starvation.

Since Friday, the veteran, who is about 80 years old, has had nothing to eat, and late last night he dropped from exhaustion on a street crowded with Hudson-Fulton celebrators. He had been ill and without a home for several weeks.

ANOTHER MURDERER HAS BEEN CAPTURED

DEED COMMITTED NEAR LA-CROSSE TWO YEARS SINCE.

Deputy Harris Located the Man in Georgia, Finally Bringing Him Back Here.

Moses Pearce, a negro who is charged with the murder of one Chas. O'Neal, another negro, near LaCrosse about two years since, and who was located a few days since by Deputy Sheriff Harris in Georgia, was given a preliminary hearing before Justice Stokes at LaCrosse Thursday. State's Attorney Rivers having been sent for to go there to represent the State, while Col. Evans Haile was secured by the defendant.

From the evidence introduced at the hearing it seems that the two men had a row over a negro woman named Hannah, and this was finally the cause of the murder, as the woman is thought to have figured some in the affair from the evidence introduced.

The woman had left her home, taking her gun with her, and O'Neal followed, securing the gun, and as Pearce came up he was run away, but later secured his gun and committed the deed.

It seems that Pearce, since his departure from this State, has again broken into trouble, having committed some misdemeanor in Georgia and it was through this that Deputy Harris was enabled to locate his man, going to that State after him.

Justice Stokes committed Pearce to jail under a \$1,000 bond to await the action of the grand jury at the next term of court.

UP FOR EMBEZZLEMENT.

Two Negroes Were Brought Here Thursday From Newberry.

Deputy Sheriff Wynne of Newberry brought two more prisoners to the city Thursday and placed them in jail to await their time to be sent to the mines near Holder.

Matt Millner, a negro who formerly lived in Gainesville and was connected with a pressing club, was sent up by Justice Carter of Newberry on a charge of embezzlement, he having "confiscated" another negro's gun. He will serve three months.

Nora Gilbert, who absconded with some \$30 placed in her hands by her man for safe-keeping, was also given three months upon the same charge.

RESISTED OFFICER.

Bound Over to Next Term of Court by Justice Carter.

Henry Fraser, a negro of the Newberry section, was brought here Thursday on a charge of resisting an officer, and placed in jail to await the action of circuit court.

Fraser resisted the marshal of Newberry and refused to follow his instructions, and it was necessary for a number of the citizens to assist in order to get him to the jail there. When his case was called he was turned over to the Justice by the mayor.

S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affections. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies the nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acrid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

OPENING PROVED BIG SUCCESS.

Mrs. McCormick's Parlors Thronged
With Ladies Thursday.

From the opening hour at 10:30 on
Thursday morning until late in the
evening the handsome millinery par-
lors of Mrs. F. T. McCormick were
thronged with the ladies of Gaines-
ville who had called to view the
styles and fashions that were tempt-
ingly and artistically displayed by
the proprietress and her assistants.

The opening was highly successful
to Mrs. McCormick from a financial
standpoint, for all during the day a
number of reservations were being
made, and she states that it was one
of the very best day's sales she has
ever had on a similar occasion.

Commencing today new and novel
patterns will be displayed to take the
place of those sold on yesterday, and
as her stock is almost unlimited she
states that she will be able to replace
the most particular and smart styles

CROP ABOUT GATHERED.

All of the Larger Growers Have Com-
pleted Picking Cotton.

From T. H. Cato of Alachua the
reporter learned Thursday that about
all of the farmers in that section had
completed gathering their cotton and
the fields will now be turned into
pasture.

Especially is this the case with the
larger growers, remarked Mr. Cato,
and they have in very few instances
made one-third of what they should
have gathered on the acreage that
was planted. Although prices have
been fairly good, it is known that in
some cases the people have not aver-
aged a bale of cotton to fifteen acres
of land planted, and this state of af-
fairs has truly been very discouraging
to the grower.

The highest prices received in the
seed at Alachua was 6½ cents last
week, but it has now dropped back
to 6 cents.

that point in just fifty minutes, includ-
ing two short stops. The distance
covered is just a little over eighteen
miles, and about six miles of this road
is yet to be paved, the greater part
of it being in the heaviest kind of
sand, but this he managed to get
through on high gear, never once let-
ting up for it.

The trip over there, when Tloga
was touched, along with the turpen-
tine camp of the Cummer Lumber
Company, was made in one hour, out-
side of stops, and this is about the
best record made by any machine that
has so far traveled the Tloga road to
Newberry.

Upon returning to Gainesville the
occupants of the auto were unanimous
in the opinion that "Shoofar" Mc-
Creary possessed remarkable presence
of mind under the most "flying" cir-
cumstances.

"LIGHTNING EXPRESS."

Old-Time Darkey Known All Over the
Country Visits Gainesville.

The familiar figure of the old col-
ored man known all over Florida for
the past forty-five years as "Lightning
Express" was seen on the streets of
Gainesville Thursday. He has prob-
ably covered a greater number of
miles afoot during his lifetime than
any human being, as the writer has
known him for thirty-three years and
has never known him to ride, always
going from place to place afoot.
"Lightning Express" was very non-
communicative when we first knew
him at Cedar Key, but he now seems
to enjoy conversing with people and
relating his experiences of the past.
It is said of him that when there was
no railroad between Palatka and Jack-
sonville he ran a race with one of the
Hart Line steamers from the Gen.
City to the metropolis, in which he
came out victorious by several min-
utes. He still carries a heavy stick
and bag, as he did when we first
knew him, and has the same swiftness
gait when he walks. Although he
now claims to be 93 years old he does
not look much older than he did
thirty-three years ago.

A Banquet

Spread before you would do you no
good if you couldn't eat. What good
can food do a child when as soon as
it enters it's stomach it is eaten by
worms. That's the reason your baby

ION L. FARRIS WILL RUN FOR CONGRESS

SPEAKER OF FLORIDA LEGISLA-
TURE WILL MAKE RACE.

Thinks He Is Capable of "Going Out
After" Our Present Brilliant
Congressman.

JACKSONVILLE, Fla., Sept. 30.—
"I have gone carefully over the sit-
uation," said I. L. Farris to a Metropo-
lis reporter of this city yesterday af-
ternoon, "and I have decided to make
the race for Congress against Frank
Clark."

"A man that runs against Clark
must go out after him, and I believe
I am capable of doing it. When I
make my announcement I will proceed
to make a vigorous campaign, and
will visit every section of the dis-
trict."

C. R. Kluger, the jeweler, 1016 Vir-
ginia avenue, Indianapolis, Ind.,
writes: "I was so weak from kidney
trouble that I could hardly walk a
hundred feet. Four bottles of Foley's
Kidney Remedy cleared my complex-
ion, cured my backache and the ir-
regularities disappeared, and I can
now attend to business every day and
recommend Foley's Kidney Remedy to
all sufferers, as it cured me after the
doctors and other remedies had fail-
ed." J. W. McColium & Co.

He who looks for short cuts to prosperity is likely to lose his way.

Standard Oil is so alarmed about something that its stocks have fallen up to 712.

The man who asserts that old King Coal was a merry old soul didn't pay the coal bills.

Commander Peary's attitude toward Dr. Cook shows that a great explorer may be a very small man.

Early activities in fall trade indicate that the prosperity prophets knew what they were talking about.

Imports of precious stones show a falling off. The great increase of the automobile industry may be the answer.

Notwithstanding his great experience, Commander Peary does not yet appear to have learned the wisdom of keeping cool under trying circumstances.

Incredible as it may appear, Justice, Liberty and Truth are now universally admired in New York. But they are only French warships, and that makes a difference.

The British Premier wants to build roads on which there shall be no speed limit for motorists. Slow old England; we have such roads all over this country today.

London street railways carried, last year, 102,000,000 passengers, at the minimum fare of 1 cent. Allowing for the wear and tear on footwear, it is cheaper to ride in London than to walk.

Apprehension regarding the rapid depletion of the United States' timber may be somewhat relieved by the tremendous strides made in the use of steel and concrete for construction purposes.

The surgeon of the Peary party has discovered a use for the polar regions, as an ideal place to make a fight successful against tuberculosis. "Summer and spring," he says, "are mild and pleasant places even within the bounds of the Arctic zone, the atmospheric conditions and constant sun making it practically impossible for the tuberculosis germ to exist."

A few weeks ago a Montreal commission unearthed evidence of lax methods in municipal administration. It has already voted to place a board of control in charge of the administration of the various civic departments. If similar action was taken in every municipality in this country where "lax methods" exist it would probably redound to the welfare of the people.

In New Jersey is a three-year-old boy who, under his grandfather's will, must refrain from smoking paper cigarettes till he is 25 if he would inherit a fortune. In the same State, as it happens, is a young woman who is to have her grandmother's money on condition that she marry neither an actor nor a divorced man. In such freakish fashion the list is extended of attempts to regulate by dead hands affairs of the living world.

It will probably be found, when a careful and exact investigation is made, that the recent damage done along the Gulf of Mexico was due not to a tidal wave, strictly so called, but to a wave raised and cast inland by the force of the terrific hurricane which swept over the region. Whenever a gigantic wave of water comes ashore with such a cost to human life and property the first reports refer to the destruction as caused by a tidal wave, yet such waves are rare, and by no means dreaded as much as is the hurricane, which too frequently sweeps across the Southern portion of the country. The power of such gales is tremendous, and hardly conceivable to anyone who has not witnessed their work. Such a wind has plenty of strength to lift a considerable body of water from the Gulf and send it whirling and roaring ashore, and this, it may be believed, is just what happened in Louisiana.

Very few will disagree with J. J. Hill about the evil effects of the continuous drift from the country to the city. It was hoped that the improved social conditions now enjoyed on the farm and the higher prices obtained for farm produce would turn the tide, or at the very least check the flow, but the hope has not been realized. And yet ultimately it will come to that. Smaller farms, extensive and more intelligent farming with corresponding increased yield per acre, better roads and further improvements in rural social life will, with the growing acuteness of the struggle for existence in the cities, lead to a better balancing of rural and urban population.

Reform in the Democratic party in Indiana is making definite progress under the leadership of Governor Marshall. Reorganization is starting with the men in control of the party and in the official berths obtained by party success, rather than with the men in the ranks. Plans are now being made for a State ticket of new men from top to bottom. The plank is being greased for the disappearance of Tom Taggart. Gentle hints have been given bosses to get out of the way. Preparations for the use of the road roller are being made in anticipation of a possible refusal.

In the last five years the Erie railroad has carried over its lines 125,000,000 passengers without ever causing the death of any of them. The passengers did not pay to get killed, and they were delivered at their destinations, and on time. The time record is now almost as good as the record of safety. Neither was very good some years ago, but the management may now feel proud of both. The road has had a hard struggle on account of inability to raise new funds, but the best application of the little available has accomplished wonderful results.

Pleas for the poor lemon growers of California during the tariff discussion in Congress resulted in an increase of the duty on that fruit of 50 cents a hundred pounds, this being necessary to equalize the cost of production at home and abroad, including delivery at the Atlantic seaboard, and a fair profit for the American producer. Now it appears that the poor lemon grower is to get but 35 cents of the increased protection, the transcontinental railroads having raised the freight rate for lemons 15 cents a hundred pounds.

New York is wondering whether the explorer's name should be pronounced Peary or Palry. If he keeps on the public will be unanimous in pronouncing it mud.

The criticism by high tariff men of the personnel of the tariff board and their threat of an effort to put that body out of existence at the next session of Congress ought not to be overlooked in the Middle West, and we do not believe it will be. If one of the members of the board is a free trader and a majority out of joint with the demand for high protective rates of duty, Mr. Taft must be responsible in part, at least. And if the board represents his attitude toward revision, he might be spared some of the attacks that have come from "insurgents" and revenue-tariff advocates since his speech at Winona. Time will be the best test of the tariff, and the very membership of the tariff board shows that following this test the President looks to revision again.

Americans are hard hitters in politics, but there is an underlying spirit of fairness which, although it may be temporarily hidden in the heat of conflict, shows itself strongly on almost every occasion. This is seen just now in special manner in the courtesies and welcome extended to President Taft in the visit he is making different parts of the country. Many may differ from him on his expressed views on certain questions, but for the man himself and as chief magistrate of the nation there is nothing but the most kindly feeling, and people of all parties unite in extending to him a characteristic American welcome and hospitality.

America spells "opportunity." This has been seen over and over again in the number of its citizens who have risen from humblest ranks to high positions of trust and responsibility. The names of Lincoln, Garfield and many others, North and South, East and West, naturally occur in this connection. The career of the late Governor Johnson, left fatherless at an early age, meeting and overcoming difficulties that would have daunted many another, rising step by step until at last he became the chief executive of a great commonwealth, and honored by all, is fresh in our mind. Such lives as his are an inspiration.

The new Irish land act, which has just passed the British House of Commons by the decisive vote of 174 to 51, is a radical measure and promises to be of great benefit to the Irish peasantry in enabling them through government aid to secure land at fair cost from the Irish land owners. Of course it has yet to run the gauntlet of the House of Lords, who may be inclined to do their best of worst to mutilate it. But just now the lords are not in good odor and they may well hesitate to take a step that would certainly intensify public hostility against them.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office. Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it. CHAS. M. DELL.

NEWS FROM ALL PARTS OF FLORIDA

The Bonifay Lumber Company will have their new plant ready for business on October 1st.

The Leonia school has been vacated two weeks and the pupils are taking a special course in cotton picking.

Capt. W. N. Carter of Orlando was killed by his bed last Saturday morning. He was eighty years of age.

Lake City is enjoying a little building boom. Quite a number of attractive cottages and residences are being put up.

Four crates of limes and twenty-bushels of guavas were shipped from the D. & H. grove in Wulferding last week.

A. W. Clyatt killed a big rattlesnake with eight rattles and a button last week on his place about a mile south of Lake City.

The truck growers at Dania are getting their land ready for tomatoes, beans, potatoes and peppers. A large acreage will be planted this season.

The Suwannee River and White Springs railroad will soon be completed. Work is being rapidly pushed forward in grading the road properly.

Henry McLaughlin, a railroad man at Pensacola who went to Mobile last week to have an operation performed for appendicitis, is reported to be doing nicely.

A washout on the bay front near Pensacola last week delayed all the boats going to DeFuniak several hours, as they had no freight from the West that day.

The daily train service between Kissimmee and St. Cloud has been inaugurated. This is a great improvement over what these people have known in the past.

The machinery for Ferdinand's cannery for dicing and evaporating fruit products has arrived and is being put up. This is an entirely new industry for the South.

Little Ruth Brisson died in the hospital at Orlando last week from the effects of having swallowed a safety pin. The body was laid to rest at Sanford, the home of her parents.

C. N. Hull & Co. of Sarasota will ship 1,500 head of cattle. Their cattle on the range are now beef fat and doing well. A large part of their business has already been contracted for.

The Day of Atonement, or Yom Kippur, the most important of all Jewish feasts on the Jewish calendar, was observed in Pensacola last Friday and Saturday with most impressive services.

The Mississippi-Atlantic Inland Waterway Association will meet in Jacksonville on November 15th and 16th. Some noted speakers from all over the country are to be present and will deliver addresses.

Last week the "Tarpon," a boat at Alachua, took 650 bales of cotton and 150 barrels of spirits of turpentine to Mobile from that point. It now 600 bales of cotton and 500 barrels of naval stores await the owner.

Col. W. E. Gullette, owner of the Jacksonville baseball franchise and manager of the Hirsch Lumber Co., who has been very ill at the DeSoto sanitarium in Jacksonville, is improving. Grave fears were felt for a while that Col. Gullette would not recover.

About two hundred prospective settlers arrived in St. Cloud last week from different parts of the country, mostly from Washington, D. C., and Cincinnati. They have expressed themselves as well pleased with the town and most of them will locate there.

They Didn't Have to Change.

During the years in which our pure food laws have been put into effect there has been a great hurrying and scurrying on the part of the food manufacturers to change their methods to make them conform to the law.

The Quaker Oats Company is a conspicuous exception. It was admitted that Quaker Oats was as pure and clean as possible and that it was an ideal food.

It is so cheap that any one can afford it and so nourishing that everyone needs it. The result of last year's experiments at Yale and other points where food values were tested is that Quaker Oats has been adopted by many persons as their food on which they rely for adding vigor and endurance of muscle and brain.

This splendid food is packed in the regular size package and in hermetically sealed tins. The latter especially adapted to hot climates. 18

BEARD QUITS POLITICS.

Spectacular Figure Will Be Seen No More in Legislative Halls. (Ocala Banner.)

State Senator John S. Beard of Escambia county, one of the most spectacular figures in Florida's political arena in recent years, has quit the game. In The Pensacola Journal he announces that he will never again take an active interest in politics other than the interest which he feels that every citizen should take.

As a candidate for Congress, a delegate to the national convention, a candidate for the United States Senate, and an active participant in every political campaign for past years in this State, Mr. Beard has occupied an important and prominent place in the politics of Florida.

He has attracted national attention by his efforts to pass a disfranchisement measure through the Legislature in violation of the fifteenth amendment in order to have Florida carry up a test case before the supreme court on this amendment. This pet measure was forever laid to rest by the last Legislature, after a magnificent fight on his part. During the last session he attracted State-wide attention by his denunciation of Governor Gilchrist, because of the stand taken by the State's chief executive relative to the Wallis-Beard Indian war claims.

In his notice of retirement from active politics he says:

"I have absolutely and permanently retired from politics. While I shall always take the interest in public questions that I think all good citizens should take, I will not again be a candidate for office, nor will I again take an active part in politics.

"I shall, from now on, energetically devote my time and attention exclusively to my profession, and am prepared to practice in all of the State and Federal courts.

"Respectfully,
"JOHN S. BEARD."

ALACHUA HAS SOME BAD NEGROES ALSO

ONE OF THE NUMBER BROUGHT HERE THURSDAY.

Constable Spencer Had Trouble With the Man in Bringing Him Here.

Alachua has some bad negroes also, judging from the "big bully" that was brought down Thursday by Constable Spencer, who had no end of trouble with the man.

Rogers Brown, the negro in question, was very abusing to the officer, and really wanted to scrap with him a number of times—his language at times being almost unbearable, but owing to having the man under his charge he passed his remarks unnoticed.

When the negro arrived here and tried some of his remarks with the officers he was soon shown that such "slack" did not go, and was given to understand that he was to obey, and not the officers.

Justice Sealey sent the man up on a charge of assault, and he will now be required to serve the next few months in the camps near Holder for Rawls & Co. for his conduct; besides, he is entitled to just a few months extra for the manner in which he acted after being turned over to the constable to be brought here.

Both Boys Saved.

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar absolutely cured my boy of a severe cough, and a neighbor's boy, who was so ill with a cold that the doctor gave him up, was cured by taking Foley's Honey and Tar." Nothing else is as certain in results. J. W. McCollum & Co.

Practicing on Wooden Legs. Of the five cases in the accident ward that were pronounced cured at the same time three remained in the hospital more than a week after the other two had gone home.

"They had to stay," said an interne, "to get used to their wooden legs. It takes some time to learn to manage them, and most men who will have to beg along with them for the rest of their natural lives stay in the hospital several days after they get well to practice stumping around on their new legs. Of course they can learn outside, but the man who has just acquired a wooden leg feels so awkward and is so likely to fall down and break the other leg or an arm or maybe his neck that we prefer to keep him here so he can take his first lessons under our supervision."—New York Press.

SUFFERING ENDED.

J. W. McCollum & Co. Sell the Remedy That Cured Stomach Trouble of 14 Years.

And best of all they guarantee it to cure you or money back. Read this:

"I have been a great sufferer for 14 years; everything I ate gave me heartburns. I have never been able to get anything that would give me any relief until a friend of mine insisted on my taking Mi-o-na. I took a 50-cent box and I believe I am entirely well."—F. M. Bryant, Newnan, Ga., June 5th.

Mi-o-na is not a nostrum; it is the prescription of a celebrated physician who is a specialist in stomach diseases.

One clever woman calls Mi-o-na the Sunshine Prescription because it changed her from a miserable, nervous dyspeptic into a bright, healthy, happy woman in a few weeks.

These little Mi-o-na tablets are surely wonder workers. They absolutely cure indigestion whether acute or chronic.

They stop belching, gas in stomach, and heaviness, in a few minutes. Distress after eating vanishes as if by magic when one or two little Mi-o-na tablets are swallowed.

Only 50 cents a box at leading druggists everywhere, and in Gainesville by J. W. McCollum & Co. Test sample free from Booth's Mi-o-na, Buffalo, N. Y.

HELLO GIRLS SAVE TOWN FROM DISASTROUS FIRE.

PAINESVILLE, Ohio, Sept. 30.—The bravery of two telephone girls, Hazel Christian and Alice Warren, sleeping in the telephone exchange at Perry, a village near here, saved that town from destruction by fire early yesterday.

Fire broke out in a store beneath the exchange. The girls were alone, but stuck to their posts and telephoned the sleeping citizens. They also summoned the Painesville and Madison fire departments and then, in their night clothes, stumbled down the stairs through the smoke to the street. The fire damage was small, thanks to the girls.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. J. W. McCollum & Co.

THE SUN "WANT" ADS. BRING RESULTS

HOW TO MAKE BUTTER.

Which Will Bring the Highest Price in Market.

If country butter is put up in neat uniform prints and carefully shipped it will sell for a good price to the city grocer.

If a good price is expected, one must really make good butter which will keep fresh and sweet for many days. To do this clean milk must be had, and this comes only from healthy cows fed on sweet grain and other forage or on pasture free from obnoxious weed—such as wild onions, ragweed, bitter weed, etc.—and with pure, fresh water to drink.

The milking should be done in a clean place free from odor and dust. The udder and flanks should be dampened and wiped dry with clean cloth. The pail should be carefully sealed and sunned or aired. The milk should be immediately strained through a cloth.

As a rule, the whole milk is churned where only two or three cows are kept, but if it is to be skimmed, the process must begin at once; the hand separator is not practical for one having so few cows, but the deep cold setting plan may be practiced successfully, especially where flowing water may be used. This plan consists in using 20 inch pans, 9 inches wide, with a strip of glass down the side. The skim milk is drawn off from the bottom.

This can must immediately be set into cold flowing water. The cream will nearly all have risen in 10 hours.

Whether milk or cream is used, the process of making butter is the same. The milk should be kept as cool as possible until ready for ripening. The ripening should be carefully done, for upon this depends much of the flavor of the butter and the quantity secured. Over-ripe cream makes strong, cheesy-tasting butter; under-ripe cream will make hard churning and a small quantity. A dairy thermometer is needed; in winter a higher temperature for ripening will be required than in summer—68 or 70 degrees in winter, and 62 or 64 in summer. The cream should be held at this temperature, by keeping it surrounded with warm water, until a little acidity is detected and then it is cooled as much as possible and kept cold until ready for churning.

A barrel churn is the best. The churn should first be rinsed in scalding water and then a pail full of cold water dashed in. After this is drawn out the cream or milk is strained through a butter-milk strainer or common gravy strainer. The churning should proceed until the butter has "come" in small granules about the size of No. 4 birdshot. A cold brine is now added to cause it to granulate more rapidly.

The butter-milk is then drawn off and clean cold water added. This is drawn off and the same process repeated until the water runs clear. This removes the butter-milk which would otherwise cause the butter to sour in a few days. When water is all out the butter should appear in granules; this is proof of proper churning. The butter is now ready for salting and working—Felix Williams, in Raleigh (N. C.) Progressive Farmer.

If you are blessed with the above—you will never purchase a parcel of real estate without an Abstract.

The legal requirements are so many and complicated in the transfer of property; the chances of judgments existing, etc., all point to the absolute need of an Abstract to avoid purchasing a "shady" title.

An Abstract is a practical necessity nowadays.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain

FOR SALE BY ALL DRUGGISTS

to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere and ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth advertising for is still true—true of the more intricate life of today. The thing you want—whether it is a used piano, or a home, whether it is a ready-made business or a little pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

The Truth Hurts.

Truth, truth, truth—no bluff. At first I was worried for the past few days, seeing that another dealer was being backed by someone to come here and try and break up my business by bringing in the second car of bananas, which arrived on Saturday and sold at 5 cents dozen, or 40 cents bunch, but I have just learned what the trust consists of and am ready to state to the good people of this city that before I shall be outdone they will have to spend something like \$10,000 to bust me. I have worked night and day to give you the lowest possible prices on fruits, and I study this question for your benefit. I will say that I am in a condition to sell you bananas at 10 cents dozen, and make a living. Several trusts like the one just started, and composed of a number of Greeks from Tarpon Springs, cannot bust me, and I am proud to say that their bluff has fallen, for they will be unable to bring more fruit to the city and put me out of business by their unfair methods, and their thoughts are all mistakes. I am staying in Gainesville, my every interest is here, I have property here other than personal, and I am going to always give you the lowest possible prices on fruits. I don't worry about their bluff, and in order to show them how much I was worried, I simply purchased the greater part of their supply—50 bunches—because I could get them just a little cheaper than they are sold on the market today, and I considered the best way was to choke them at their own game. I have one more dig at them for peddling without a license, and have notified the proper officers to see that they get the same treatment that was once given out to me. Buy from the originator, and be happy, for he will always take care of your wants by having the very best in fruits. N. Francisco, the Big Banana Man.
